- Twin-ram balers
 - Standard-duty series
 - Heavy-duty series
- Scrap metal balers
- Oil filter balers
- Conveyors
 - Slider-bed
 - Chain-belt
- Fluffers
- Cart dumpers
- Self-contained compactors
- Stationary compactors

Design assistance with waste and recycling flow, site fit, etc.

Engineered for Peak Performance

F66-Series Balers

F66-Series twin-cylinder balers from Summit Equipment, Inc. are engineered for peak performance in baling OCC, ONP, CPO, office paper, UBC, and tin cans. They can also be modified for plastics, foam, and other special materials. Bales can be sized to an industry-standard 30"H × 48"W × 60"L and will weight 900-1200 lbs in OCC.

These balers produce industry-standard bales much faster than vertical balers and at less cost than traditional horizontal balers. They are standardly equipped with shear blades that are flippable, adjustable, and replaceable. Their controls allow owner adjustment of electric-eye settings, conveyor settings (optional—if so equipped), and shut-down timer.

Productivity, durability, and flexibility are designed-in. Ask your Summit representative for more information.
