

AC30 Apartment Compactor

The AC30 Apartment Compactor is the Ideal Solution For:

- Small Apartment Buildings
- Hospitals
- Nursing Homes
- High-Rise Chute Rooms

Solid waste in your building has been brought down to street level with a dedicated waste chute and the AC30.

Compare these features of the AC30 with the competition:

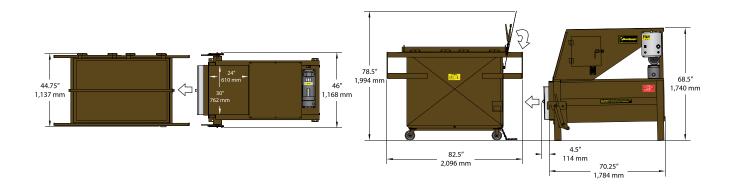

- 31 second cycle time
- 4" cylinder with 2" rod
- Fewer trips to your dumpster
- Compacts into a 2.25 cubic yard container
- Reduces pickups by waste haulers
- Ground level waste pickup

- Front load or rear load available
- Small operating space required
- Saves labor and time
- Improves business appearance

The AC30 Apartment Compactor, another great idea from Harmony Enterprises...The Undisputed Leader in Quality Manufacturing.

AC30 Apartment Compactor

Standard AC30 Features:

- Control panel is UL® listed
- Built to give the system a very long life, assuring little chance of system downtime and repairs
- One-sided container connection system allows the user to connect and disconnect by pulling one lever
- Installation and operating area: 244 square feet (22.7 square meters)
- Meets or exceeds all ANSI and OSHA requirements
